- |                                |   |
|--------------------------------|---|
| • <b>Programming Languages</b> | Python                                  |
| • <b>Frontend</b>              | React, HTML, CSS, JavaScript, Bootstrap |
| • <b>Backend</b>               | Django, REST API                        |
| • <b>Databases Design and</b>  | MySQL, MongoDB                          |
| • <b>Prototype</b>             | Canva , Figma                           |
- 

## EXPERIENCE

### Python Full Stack Developer Intern (SMEC Labs)

- Utilized Python, JavaScript, Django, HTML, CSS, and Bootstrap to develop comprehensive applications, delivering seamless functionality and intuitive user experiences.
  - Enhanced data management and user interface functionalities to improve application efficiency.
  - Developed backend functionality primarily using Python, focusing on efficient data management and integration with MySQL and MongoDB databases.
  - Continuously expanding knowledge in Python, database management, and front-end design. Actively applying these skills in ongoing projects.
- 

## PROJECTS

### e-commerce clothing website | Django | MySQL | [Git-Link](#)

- Designed a comprehensive prototype using Figma to conceptualize the user interface and user experience
- Developed the frontend of the website using HTML, CSS, JavaScript, and Bootstrap, ensuring a sleek and responsive design suitable for e-commerce clothing
- Implemented backend functionality using the Django framework, leveraging its robust features for efficient data management, user authentication.
- Integrated MySQL database to store and manage clothing items, user profiles, providing a scalable and reliable storage solution.

- Offered users a seamless browsing experience with a wide selection of category, allowing them to add to cart, add to wishlist, order product, rate and review products.
  - Implemented a sophisticated filter feature enabling users to easily find and select their desired products based on criteria such as category, specs, and price.
- 

## EDUCATION

### B.Tech In Computer Science

Jun 2019 - Jul 2023

Sree Narayana Gurukulam College Of Engineering

- Computer Science
- CGPA : 6.7

### Higher Secondary

Jun 2018 - Jun 2019

Sree Narayana Vidya Peetam Public School

- Computer science
  - percentage - 74%
- 

## CERTIFICATES

- Python for data science
- Power BI Certification
